

PMO Security Risk Management; formerly known as Praeventia

Since January 2020, Praeventia is part of PMO-Excellence, our consultancy firm specialized in project management. We believe that safety & security risk management should not be seen as a stand-alone, but should be part of the overall approach in projects. To ratify this inclusion, even more, the choice to change the name from Praeventia to PMO Security Risk Management was an easy one.

For more information, please do not hesitate to contact us. Our new email address is:
